

THOMAS ALLEN ARCHER 2018 AHRMM BOARD CANDIDATE

With more than 20 years' experience in Materials Management and Supply Chain Operations, I am a true example of professional development within our industry. Beginning as a PCT in the Operating Room, I have been given numerous opportunities to serve in a variety of roles across the healthcare supply chain.

I completed my MBA with a concentration in Healthcare Administration at King College; I am a Certified Materials & Resource Professional, (CMRP) and currently serve as the Immediate Past President of the Georgia Society for Healthcare Materials Management.

In 2016, I was appointed to the AHRMM Board to fill a vacant Provider Seat. During that time I have had the opportunity to engage on a number of strategic initiatives including crafting the envisioned future for AHRMM and our efforts to reachout to the next generation of Supply Chain leaders.

These efforts are vital for the long-term strength of our association and ultimately our profession. This work is still ongoing, and I am dedicated to insuring that we build the framework now that will guide our profession for many years to come.

Now that my appointed term is complete, I am seeking election back to the AHRMM board so that I can continue to serve the industry that has given so much to me, as we continue to advance healthcare through supply chain excellence.

Selected Accomplishments & Guiding Principles

- CMRP Since 2009
