

# **Supply Chain Evaluations**

Following are two sample evaluations that provide examples for gathering input for and about the supply chain department.

# **Supply Chain Service Evaluation**

The sample survey is an example for gathering input about supply chain services from various departments.

# **Supply Chain Rounds Report**

Supply Chain staff will complete this duplicative form and leave a copy with the supply coordinator or department manager each time a visual round is made to a department. This can be anything that is important in the supply chain's scope of services to a department.

One copy should be left with the person who is the unit supply coordinator, and the other taken back to supply chain.

These examples are not intended to be all-inclusive and it is recommended that providers use it as a template to develop their own evaluation suited for their individual organization.

### Health Care Organization Name

"Where needle sticks are painless." Mystic, Connecticut

# **Supply Chain Service Evaluation**

Supply chain values your input, and we want to respond to specific issues you have identified in this survey. Please take a few minutes to complete it. If you provide your name and unit number, we will respond to you with a solution. If you are more comfortable responding anonymously we understand that, but it will be harder to specifically assist you.

## PAR Stock Area

1. [] We noticed stockouts. They include:

a	[ ] Substitute is coming by
b	[ ] Substitute is coming by
С	[ ] Substitute is coming by
d	[] Substitute is coming by

[] I came back with a small supply, or a replacement for the items that are checked

above. We will have the original supply back on the shelf as quickly as we can!

- 2. [] You are missing one or more shelf labels. We have requested replacements that will be on your shelves in the next day or two.
- 3. [] The floor is dirty in your clean storage area. We have asked housekeeping to make a special effort to mop and clean it for you.
- 4. [] We noticed that you have boxes on the floor. We have scheduled a review to determine where on the shelves we can place this material for you.
- 5. [] Several bins are broken. We will replace those in the next several days.
- 6. [] Several bins are the wrong size. We will adjust those in the next several days.
- 7. [] We have identified issues with your Pyxis unit(s). These will be taken care of in the next few days.
- 8. [] It looks like you are overstocked on one or more items, and they are spilling out on the shelves and the floor. We will arrange a time to discuss why there is extra inventory and make appropriate adjustments.

9. [] I believe that you have a consistent stock-out situation for certain products, and I will make arrangements to meet with you to quickly review adjustments, so that you have adequate stock.
