ABOUT USA Medical Supply

USA Medical Supply is a world-leading manufacturer of personal protective equipment (PPE) supplying industry and healthcare for many years. Our team has decades of experience working within the healthcare sector alongside dedicated healthcare professionals. Working closely together with the leading healthcare providers and frontline staff means we have built our expertise to develop and deliver the best possible protection for healthcare professionals and the patients they care for.

USA Medical Supply is committed to manufacturing healthcare products. This strategy has been accelerated and production significantly increased in response to the demand for PPE generated by the COVID-19 crisis. Our developing network and supply chains means that we are working towards ensuring rapid delivery to our customers, and in doing so we are significantly reducing our carbon footprint. We are employing hundreds of highly-skilled manufacturing personnel producing millions of Nitrile Gloves, TPE Gloves, Medical Gowns (Level 1 – 5) filtering face masks, medical masks and visors to protect healthcare professionals.

We are proud our products are integral to our customers' working lives, equipping them to perform in their role safely and empowering them to do the best job possible. We have worked tirelessly to provide high-performing world-class solutions to customers across the globe.

PRODUCT BROCHURE USA Medical Supply

PPE FOR A SUSTAINABLE FUTURE

Our core values include a deep commitment to the long-term welfare of future generations. That means we pledge to ensure our business and operational processes are as economically, environmentally and socially sustainable as possible – creating high quality local jobs, reducing waste and energy use, protecting natural resources, supporting our communities and strengthening supply chains. We believe that economic and ecological progress go hand in hand. So we will always strive to be environmentally responsible as we meet the needs of key partners and stakeholders. As an industry and manufacturing leader, we have a responsibility to set a good example in this area, maintaining outstanding levels of safety, protection and reliability across our PPE portfolio. Our range is manufactured using high quality, longer lasting materials. The principles of reduce, and recycle will drive many innovations across our product portfolio in the future.

N95 Makrite Mask

SKU #: USAMS_N95_USA

Makrite 9500V-N95 has the same high performance respirator as our no. 9500-N95, but with an exhalation valve to make it easier to breathe through in hot or humid work conditions. Makrite's unique exhalation valve offers maximum inhalation protection while providing minimal exhalation resistance. This feature and all those of our standard no. 9500-N95 combine to offer the proper fit and durability. Special featured welding elastic which is an alternative choice for head strap.

This product has been tested and meets the NIOSH standards of N95. The main performance tests in this standard are: • **Filter Penetration** • **Breathing Resistance**

PRODUCT DETAILS

- Manufacturer: USAMS
- Sizes: Medium and large
- Filtration Rate: >95%
- TC Number: 84A-5411
